

Vibratory Tables

Industrial vibratory tables, built to application

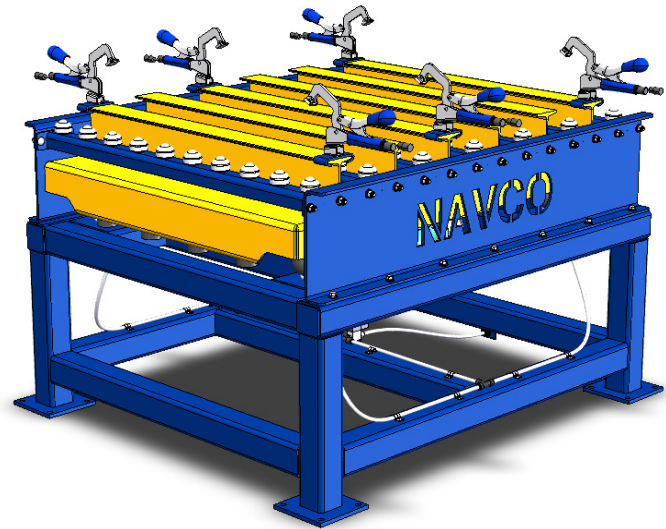

NAVCO Vibratory Tables are utilized in a variety of applications and industries, including:

Applications

- Packaging densification
- Separation or sorting
- Mold densification
- Shake outs
- Weighing
- Special requirements

Industries

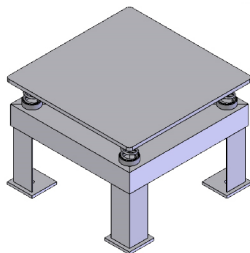

- Aerospace
- Chemicals
- Concrete
- Consumer products
- Food processing
- Foundry
- Plastics

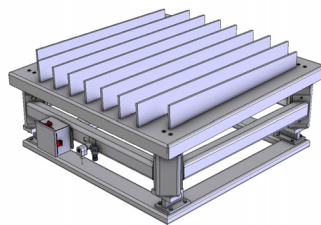

Drive Options:	◆ Pneumatic:	Instant start/stop control. Inherent linear vibration. Low initial cost.
	◆ Dual Electromechanical:	Linear force output. Large capacity range. Low operating cost.
	◆ Single Electromechanical:	Elliptical force output. Low operating cost. Low initial cost.

All NAVCO tables are designed and manufactured per your requirements. From simple to sophisticated, we can construct a table package that meets your needs. Please contact us to discuss the details of your application. Common arrangements include:

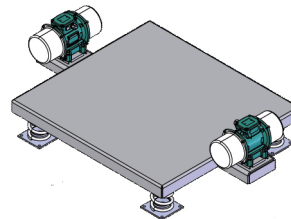

Flat Top

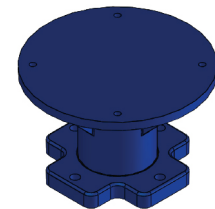

Grid Top

Low Profile

Jolt Table
